Top 3 Media

SCORING FORM

Please note the 5 best media in each category according to the four criteria below (scores from 1 to 100), excluding your media organization or the one in which you work:

1. Pluralism of opinion: the media outlet presents or allows to be presented in its columns or broadcast the ideas promoted by the different political currents on the national scene.
2. Reliability of information: information is generally verified.
3. Denunciation of human rights violations and less self-censorship.
4. Editorial independence: the media does not give in to outside pressure from politicians who could influence its content.
